Speed determined by GPS. Fuel consumption based on total usage by engines. MPG computed from MPH and GPH. Range based on 90% of total fuel capacity. Weight based on standard engine configuration. The performance data shown is valid only for the specific boat tested and the conditions that existed when the test was performed. Many factors may affect performance, including but not limited to, installation of certain options; vessel loading and trim; weather and sea conditions; and engine, propeller, and hull bottom conditions. NAVAN makes no guarantee whatsoever that this performance will be repeated on this boat at a later date and/or at any time on a similarly equipped boat.

Features, options and specifications are subject to change and may vary for different model years. Images shown depict European models. Some accessories may not be available as standard features or upgradeable options. Confirm specifications and availability of features and options with an authorized NAVAN dealer.
